## KNOW MORE ABOUT US

We have with us talented and trained persons, each having exposure to industrial, commercial, residential security and intelligence knowledge in this field. Our security personnel are physically courageous and disciplined.

They are bold yet polite, peace loving yet not coward, friendly but shrewd while on duty, sharp in act but calm and affable where presence of mind is lost by the common man, working in the common climate but vigilant and faithful to the organization.

It is on account of the above trait that our services are engaged by multinational companies, corporate houses and renowned organizations throughout all over Maharashtra.

Our security personnel perform their duties in neat and clean uniform of our organization. Our security personnel are adequately trained and prepared to handle and respond to emergencies and potential threats. The personnel are given compulsory pre-assignment trainings, on job training, refresher courses, supervisor courses, emergency and evacuation procedures, first aid, etc. They work for our valued clients as per their instructions but are paid and looked after by us. Our security personnel enjoy all the statutory benefits such as E.S.I.C., P.F., Leave, Bonus, Gratuity, etc.

On regular basis our field officers visit the client's premises day and night to ensure smooth functioning of the security duties. In addition, our management team conducts surprise visits so as to maintain alertness and vigil amongst the security personnel deployed for clients.

We understand that each client is different from the other. Thus, we work with our clients and

understand their individual requirement and formulate a security program for them accordingly. We continuously review our functioning modalities with clients and regularly update them about the

gaps and upgrades that may be required for the effective functioning and performance of security at their establishments.

# PROFESSIONAL

•• SECURITY & FACILITY SERVICES ••

Approved by : Govt. of Maharashtra
